Engineered for the relentless demands of industry.

Uncompromising Performance in a Compact Frame

The Thinvent® Treo Mini PC delivers serious desktop power in an incredibly small footprint. Built around a high-performance Intel® processor, it tackles complex industrial applications, data processing, and multi-tasking with smooth, reliable efficiency. This is computing power you can depend on, day in and day out.

Robust Reliability, Built to Last

This isn't just another computer; it's a workhorse engineered for challenging environments. Its solid aluminium chassis isn't just for show—it provides superior heat dissipation and a rugged, durable build with a smooth, professional finish. With dual Gigabit Ethernet ports, it offers steadfast, wired network reliability for critical operations, free from wireless interference.

Tailored for Your Operational Needs

Ready to work straight out of the box with a stable Ubuntu Linux OS, the Treo is a secure and efficient platform for your specialised software. We understand that one size doesn't fit all in industry. That's why, for larger requirements, we offer complete customisation—from colours to specific design tweaks—ensuring the solution fits your workspace and branding perfectly.

Proudly conceived and manufactured in India, the Treo Mini PC represents a fusion of intelligent design, robust construction, and adaptable performance for the modern industrial workspace.
