A new standard in focused digital workspaces.

The Thinvent Uno isn't just a computer; it's your dedicated hub for reliable, secure, and hassle-free operations. Engineered for the long haul, its sleek all-in-one design integrates everything you need into one space-saving unit, freeing your environment from clutter and complexity.

Built for business-critical environments

Where it excels: This PC is purpose-built for the jobs that keep your business running. Imagine it seamlessly managing self-service kiosks in a busy retail store, displaying vital production data on a factory floor, or serving as the reliable terminal for point-of-sale and inventory management. It provides the stable, consistent performance required for digital signage, classroom instruction, and remote desktop applications without the overhead of a traditional PC.

Why choose the Uno?

- Experience exceptional reliability with an embedded operating system designed for 24/7 operation, immune to common viruses and bloatware.
- Simplify your IT management with browser-based remote tools that allow you to update, monitor, and control devices from a single location.
- Reduce your total cost of ownership with a low-power design that saves on energy and requires minimal maintenance.
- Get straight to work with essential productivity and development software pre-installed and ready for your custom applications.

Embrace simplicity and endurance. The Thinvent Uno delivers unwavering performance where you need it most, day after day.
