Engineered for the relentless rhythm of industry: the Thinvent Uno All-in-One PC.

Built to Endure

Forget fragile consumer tech. The Uno is constructed for demanding environments like factory floors, logistics hubs, and busy workshops. Its robust, all-in-one design consolidates power into a single, space-saving unit with a rock-solid fixed stand, eliminating cable clutter and vulnerable separate components. This is a machine that gets straight to work and stays there.

Clarity Under Pressure

The vibrant 21.5-inch full HD display delivers crisp visibility for inventory management, process monitoring, or quality control, even in challenging light. The streamlined Windows 11 Pro interface ensures reliable, familiar operation for essential business applications, keeping daily tasks flowing smoothly without distraction or delay.

Pure, Uncompromising Performance

With efficient quad-core processing and solid-state reliability, the Uno tackles operational software with responsive certainty. Its focused connectivity, including high-speed Gigabit Ethernet, is purpose-built for secure, wired network integration in industrial settings where consistent, dependable data transfer is paramount. This is a dedicated workhorse, designed for one thing: keeping your core operations running without a hitch.
