The Unwavering Performer for Your Essential Operations.

Built for reliability in the most demanding environments, the Thinvent Uno All-in-One PC consolidates your critical tasks into a single, robust unit. It delivers focused performance where you need it most, day in and day out.

Ideal for a range of dedicated applications

- Digital signage and information kiosks in retail or public spaces.
- A centralised control terminal for manufacturing or logistics.
- A secure workstation for single-function business processes.
- A durable point-of-sale or ordering system in hospitality.

Why choose the Uno

Engineered for Simplicity: With its integrated design and pre-installed Thinux™ operating system, it's ready to run your core applications from the moment you power it on, minimising setup and maintenance.

Robust and Dependable: Designed for continuous operation in commercial and industrial settings, its solid construction and efficient hardware ensure long-term stability for your vital operations.

Streamlined Management: The intuitive system allows for easy remote monitoring and management, giving you control and reducing the need for physical intervention, saving time and resources.

Secure and Focused: Free from unnecessary bloat and connectivity, it provides a secure, dedicated platform for your specific software, enhancing both security and operational consistency.

Choose the Thinvent Uno. The steadfast, all-in-one computing solution that gets the job done, without fuss or failure.
