Simplify your workspace with powerful, reliable computing.

The Thinvent Uno All-in-One PC is built for demanding industrial and commercial environments where space is at a premium and reliability is non-negotiable. It consolidates your entire system into a single, robust unit, eliminating desktop clutter and reducing points of failure.

Ideal for deployment in

- Digital signage and information kiosks
- Factory floor control stations and HMIs
- Point-of-sale and hospitality systems
- Secure network monitoring and management posts

Engineered for endurance

Its fanless, solid-state design ensures silent, maintenance-free operation in environments where dust and debris are a concern. The industrial-grade components and metal housing are built to withstand the rigours of 24/7 operation, while the fixed stand provides secure, stable placement. With dual Gigabit Ethernet ports, it offers robust, wired network connectivity for critical applications, free from wireless interference. Pre-installed with the stable and secure Ubuntu Linux, it provides a streamlined, cost-effective platform ready for your specialised software.
