Powerful Simplicity, Engineered for the Real World. The Thinvent® Uno All-in-One PC strips away complexity to deliver focused, reliable performance exactly where you need it. This isn't just a computer; it's a robust solution for demanding environments.

Unmatched Reliability for Critical Operations

- Built to thrive in industrial settings, from factory floors to secure control rooms, with a durable aluminium alloy construction.
- Dual Gigabit LAN ports ensure fail-safe, high-speed wired connectivity for seamless network integration and data transfer.
- Operates flawlessly within a wide temperature range, providing steadfast performance when it matters most.

Engineered for Productivity and Control

- The crisp 21.5-inch Full HD display, paired with a height-adjustable stand, guarantees comfortable viewing and optimal workspace ergonomics.
- A wealth of connectivity options, including multiple USB ports, HDMI, and VGA, allows for easy integration with a vast array of peripherals and legacy equipment.

- The pop-up webcam offers privacy and security when not in use, perfect for secure video conferencing or monitoring applications.

Streamlined and Secure by Design

- Supplied without an operating system for ultimate flexibility, allowing you to install your preferred, specialised software for complete control.
- A Kensington lock slot provides an added layer of physical security for your valuable hardware.
- Its clean, all-in-one form factor saves crucial space, reduces cable clutter, and presents a professional, integrated look.

Choose the Thinvent® Uno for a no-nonsense, dependable computing foundation that puts robust performance and seamless integration first.
