Meet the Thinvent Uno: the all-in-one that puts professional performance where you need it most.

Designed to blend seamlessly into any workspace, this 21.5-inch All-in-One PC brings a clean, clutter-free look to your reception, shop floor, clinic, or office. With its neat fixed stand and stylish black aluminium and steel housing, it looks the part on any counter - while taking up a fraction of the space a traditional tower and monitor would claim.

Everything you need for a smooth day's work is built in. The responsive multi-core processor handles everyday business tasks with ease, from managing bookings and processing orders to running office software and browsing the web. Windows 11 Professional adds familiar, secure computing, so your team can get straight to work with confidence.

The full HD display offers crisp, clear visuals with wide viewing angles, making it ideal for customer-facing screens, digital signage, or simply working comfortably for hours on end. The discreet pop-up camera is there when you need it for video calls, and retracts when you don't - a thoughtful touch for privacy.

Under the hood, TUV-certified reliability means this is a machine built to keep going. It runs cool and quiet, sips power, and connects easily to your network, peripherals, and the internet thanks to dual-band wireless and fast ethernet. Plenty of USB ports let you plug in a printer, scanner, or card reader without any fuss.

Whether you're upgrading a busy front desk, outfitting a training room, or setting up a professional kiosk, the Thinvent Uno is the straightforward, dependable choice that lets you get on with business - no drama, just results.

Why choose Thinvent?

- Purpose-built for commercial and industrial environments
- Secure, professional Windows 11 Pro out of the box
- Space-saving all-in-one design that simplifies your setup

Backed by Thinvent's commitment to quality and support

Keep your operation moving with the Uno - the understated all-in-one that works as hard as you do.
