Maximise uptime and streamline operations with a purpose-built industrial computing solution.

Engineered for demanding environments

Experience reliability in commercial settings where every second counts. This all-in-one system integrates a vibrant 21.5-inch display and powerful Intel processing into a single, robust unit, eliminating desktop clutter and simplifying your setup. Its durable aluminium alloy construction and wide operating temperature range ensure consistent performance day in, day out.

Built for seamless integration and control

Simplify your network deployment with dual Gigabit Ethernet ports for versatile connectivity. The height-adjustable stand and space-saving design make it easy to integrate into kiosks, control rooms, or digital signage applications. With its embedded Thinix operating system, benefit from a secure, stable platform that supports essential business tools and browser-based remote management for effortless oversight.

Your dedicated workhorse for critical tasks

- Boost productivity with a responsive, fanless design that operates silently in public spaces.
- Enhance security with a dedicated, locked-down OS and Kensington lock compatibility.
- Reduce total cost of ownership with a reliable system built for 24/7 operation.
- Deploy versatile applications from interactive displays to process monitoring with native support for essential development tools.

Choose the Thinvent Uno for a dependable, all-in-one computing foundation that just works.
