The streamlined core of your industrial operation.

Built for demanding environments where simplicity and reliability are non-negotiable, the Thinvent® Uno All-in-One PC consolidates your workstation into a single, robust unit. Forget about bulky towers and tangled cables; this compact computer is designed for seamless integration into control rooms, kiosks, and factory floors, saving valuable space and reducing clutter.

Ideal for

- Industrial control and monitoring stations requiring steadfast performance.
- Digital signage and information points in secure, managed networks.
- Dedicated process applications where wireless connectivity is a security concern.

Why choose the Uno?

- Uncompromised reliability with a fanless, solid-state design built to endure 24/7 operation.
- Enhanced network control and redundancy with dual Ethernet ports for critical connectivity.
- A clean, professional all-in-one form factor that installs in minutes and looks part of the machinery.
- A pure hardware platform, delivered without an operating system for complete software flexibility and security on your terms.

Deploy a computer that works as hard as your business does. The Thinvent Uno is the dependable, no-fuss foundation for your most vital industrial tasks.
