Meet the workspace that works as hard as you do.

Streamline your operations with a single, seamless unit.

The Thinvent Uno 21.5" All in One PC turns clutter into clarity by combining a powerful 12th generation Intel Core i5 processor with a stunning full HD display in one elegant package. Say goodbye to tangled cables and bulky towers – this space-saving design lets your team focus on what matters, not on their setup.

Built for demanding environments where reliability is non-negotiable.

- Handle multiple applications and data-intensive tasks with ease, thanks to a processor that delivers snappy, responsive performance for point-of-sale, customer-facing kiosks, or industrial control stations.

- Enjoy crisp, vibrant visuals from a 21.5 inch screen with wide viewing angles, perfect for shared workspaces and collaborative use.

- Stay connected and productive with dual-band Wi-Fi and gigabit Ethernet, ensuring your system stays online whether you're on the shop floor or at the front desk.
- The robust aluminium and steel construction means this PC can take the bumps of daily use, while the integrated pop-up camera adds a layer of security and convenience for video calls or quick user authentication.

Why choose the Thinvent Uno?

Because you need a computer that fits your workflow, not one that fights it. This all-in-one is purpose-built for professionals who demand performance without the fuss. It runs without an operating system so you can deploy your own trusted environment, giving you full control from day one. With flexible connectivity, a compact footprint, and proven durability, it's the smart choice for businesses that value efficiency and longevity. Upgrade your workspace today.
