Your workspace deserves a computer that works as hard as you do.

### The perfect blend of power and elegance

Meet the Thinvent Uno 21.5" All in One PC. Designed to streamline your desk and elevate your productivity, it brings professional-grade performance to a stunningly slim frame. No bulky tower, no tangled cables – just a crisp, full-HD display with a height-adjustable stand that puts comfort at your fingertips.

### Built for demanding tasks

Powered by a 12th Gen Intel Core i5 processor, this all-in-one handles everything from spreadsheet heavy lifting to video conferencing with effortless speed. The pop-up 2MP camera keeps you discreetly connected, while dual-band Wi-Fi ensures your connection never skips a beat.

### Ready for your business, your way

Supplied without an operating system, the Uno gives you complete freedom to deploy the software environment that suits your organisation – whether that's a custom Linux build or a volume-licensed Windows setup. It's the smart choice for IT managers who want control without compromise.

### Modern, secure, and built to last

Housed in a robust aluminium and steel chassis, this PC is as durable as it is handsome. Wide viewing angles and integrated stereo speakers make it a natural for reception areas, training rooms, or retail counters. And with multiple USB ports plus HDMI and VGA outputs, you can connect peripherals, barcode scanners, or a second screen in seconds.

### Designed for all-day comfort

The height-adjustable stand lets you tilt and position the screen for a perfect viewing angle, reducing strain during long shifts. Low power consumption and silent operation mean it works quietly in the background – so you can focus on what matters.

Choose the Uno: the professional all-in-one that combines performance, flexibility, and style in one elegant package.
