Without OS

Height Adjustable Stand

SKU: UNO22-I5_12H-8-M1024-12_10-M-W_OS-HA

Your workspace deserves a computer that works as hard as you do.

The perfect blend of power and elegance

Meet the Thinvent Uno 21.5" All in One PC. Designed to streamline your desk and elevate your productivity, it brings professional-grade performance to a stunningly slim frame. No bulky tower, no tangled cables – just a crisp, full-HD display with a height-adjustable stand that puts comfort at your fingertips.

Built for demanding tasks

Powered by a 12th Gen Intel Core i5 processor, this all-in-one handles everything from spreadsheet heavy lifting to video conferencing with effortless speed. The pop-up 2MP camera keeps you discreetly connected, while dual-band Wi-Fi ensures your connection never skips a beat.

Ready for your business, your way

Supplied without an operating system, the Uno gives you complete freedom to deploy the software environment that suits your organisation – whether that's a custom Linux build or a volume-licensed Windows setup. It's the smart choice for IT managers who want control without compromise.

Modern, secure, and built to last

Housed in a robust aluminium and steel chassis, this PC is as durable as it is handsome. Wide viewing angles and integrated stereo speakers make it a natural for reception areas, training rooms, or retail counters. And with multiple USB ports plus HDMI and VGA outputs, you can connect peripherals, barcode scanners, or a second screen in seconds.

Designed for all-day comfort

The height-adjustable stand lets you tilt and position the screen for a perfect viewing angle, reducing strain during long shifts. Low power consumption and silent operation mean it works quietly in the background – so you can focus on what matters.

Choose the Uno: the professional all-in-one that combines performance, flexibility, and style in one elegant package.
