Compact power that commands any workspace.

Purpose-built for modern professional environments where reliability meets style. The Thinvent Uno 21.5" All-in-One PC brings together the performance you need for daily business tasks, from customer-facing kiosks to busy office desks, without the clutter of a traditional tower. Its sleek, all-in-one design frees up valuable desk space while delivering the responsiveness that keeps workflows smooth.

Why choose the Thinvent Uno for your next deployment

- Seamless multitasking powered by a 12th generation Intel Core i5 processor, built to handle everything from POS systems and digital signage to data entry and video conferencing.
- Crystal-clear visuals on a 21.5 inch full-HD display, with wide viewing angles that make it perfect for shared screens in retail, hospitality, or healthcare settings.
- Effortless connectivity with dual-band WiFi and gigabit Ethernet, ensuring you stay online whether cabled or wireless.

- Robust yet quiet operation, thanks to efficient passive cooling and an aluminium alloy housing that looks professional and stands up to long hours of use.
- A pop-up camera and built-in stereo speakers mean you're ready for video calls and multimedia content without external peripherals.
- Low-power 12V DC operation reduces electricity costs and makes the Uno ideal for always-on applications like self-service checkouts or information points.
- Pre-loaded with Windows 11 Pro, giving you enterprise-grade security and management features straight out of the box.

Whether you are kitting out a call centre, modernising a reception area, or building a reliable point-of-sale station, the Thinvent Uno offers a clean, capable, and cost-effective solution that's ready to work from day one. No complex setup, no wasted space – just dependable all-in-one performance.
