Unlock streamlined efficiency with a purpose-built industrial computer.

The Thinvent® Uno All-in-One PC is engineered for demanding environments where reliability, simplicity, and robust connectivity are non-negotiable. Its sleek, integrated design eliminates clutter and maximises desk space, providing a powerful, self-contained workstation ready for immediate deployment.

Why choose the Uno All-in-One PC for your operation

- Experience seamless multitasking and responsive performance for critical business applications, keeping your operations running smoothly.
- Benefit from dual Ethernet ports for network redundancy or connecting to separate networks, ensuring your vital data connections are always live.

- Deploy with confidence using the pre-installed, secure Thinux™ operating system, designed for stability and easy remote management to reduce IT overhead.
- Enjoy the clarity of a large, vibrant display perfect for control rooms, digital signage, or point-of-sale, all within a rugged, space-saving chassis.
- Connect a full suite of peripherals with versatile ports, while integrated WiFi provides flexible networking options for any facility layout.

Built for the long haul, the Uno consolidates power and practicality into one resilient unit. It's the intelligent, hassle-free computing solution for retail, hospitality, light industrial, and office settings where dependable performance day after day is the ultimate requirement.
