Unleash industrial-grade computing, elegantly consolidated.

The Thinvent® Uno 21.5" All in One PC is built for demanding environments where space is at a premium and reliability is non-negotiable. It consolidates a powerful computer into a single, streamlined unit, eliminating desktop clutter and simplifying your operations.

Engineered for endurance

- Experience robust performance for industrial control, digital signage, and kiosk applications, ensuring your critical processes run smoothly day in and day out.
- Benefit from the stability and security of a pre-installed Ubuntu Linux environment, offering a trusted platform free from licensing headaches.

- The dual Ethernet ports provide essential network redundancy and connectivity flexibility, ideal for complex installations or secure, isolated networks.
- Its clean, all-in-one design with a fixed stand offers a secure and permanent installation, perfect for wall-mounting in tight spaces or on the factory floor.

Built for the long haul

Housed in a resilient black chassis, the Uno is designed to withstand the rigours of 24/7 operation. The pop-up camera adds convenience when needed while maintaining a sleek, professional profile. It's the dependable, no-fuss computing solution that gets straight to work and stays there.
