## Precision Engineered for Demanding Environments

The Thinvent® Uno All-in-One PC delivers unwavering industrial-grade performance where you need it most. Forget consumer-grade fragility; this is a robust computing solution built for 24/7 reliability in kiosks, digital signage, factory floors, and control rooms.

### Uncompromising Reliability in a Streamlined Design

Say goodbye to bulky towers and messy cables. Its all-in-one aluminium alloy construction saves valuable space while resisting the rigours of daily industrial use. With dual Gigabit Ethernet ports, it ensures a rock-solid, hardwired network connection for critical data transfer and machine control.

### Effortless Remote Management and Deployment

Our dedicated Thinux™ operating system is the secret to seamless oversight. Manage, update, and troubleshoot your entire fleet of devices from a single, secure browser-based interface—no need for physical access. It comes fully equipped with essential productivity and development tools, ready to run your custom applications straight out of the box.

### Key Advantages

- Robust, fanless design ideal for dusty or sensitive environments.
- Simplified setup and maintenance with an integrated, clutter-free form factor.
- Enhanced security and stability with a purpose-built, lightweight OS.
- Direct support for industrial protocols and remote management tools.
- A cost-effective, durable alternative to consumer PCs in commercial settings.
