Engineered for endurance, built for purpose: the Thinvent Uno All-in-One.

This isn't just a computer; it's a resilient operational hub designed for demanding environments. It consolidates everything into a single, robust unit with a crisp 21.5-inch display, eliminating cable clutter and saving valuable space on factory floors, in logistics hubs, or at secure workstations.

Why the Uno stands apart

Uncompromising reliability for 24/7 operation: With its industrial-grade components and efficient embedded operating system, the Uno delivers steadfast performance where standard PCs would falter. It's built to handle continuous operation in varied conditions, ensuring your critical processes never miss a beat.

Simplified management and iron-clad security: Say goodbye to complex IT overhead. The integrated Thinux platform offers streamlined remote management and secure application deployment. With dual Ethernet ports for network redundancy and no WiFi, you gain enhanced control and a reduced attack surface, perfect for sensitive or isolated networks.

Adapts to your workflow, not the other way around: The height-adjustable stand allows you to position the screen perfectly for any task or operator, reducing strain and boosting productivity. Its versatile connectivity supports everything from legacy peripherals to modern devices, making integration into your existing setup seamless.

Deploy the Thinvent Uno for digital signage, production line control, secure data terminals, or interactive kiosks. It's the dependable, all-in-one solution that just works, day in and day out.
