Uncompromising performance in a sleek, space-saving design.

When your workspace demands power without clutter, the Thinvent Uno 21.5" All in One PC delivers exactly what you need. Powered by the latest AMD Ryzen 5 processor, this machine handles everything from data entry and customer-facing applications to light design work and digital signage with effortless ease.

Say goodbye to tangled cables and bulky towers. The Uno combines a 21.5-inch full-HD display and a robust computer into one elegant unit. Its aluminium and steel chassis means it can withstand the rigours of a busy shop floor, reception desk, or production line, while the fixed stand keeps it stable and secure.

The pop-up webcam adds a touch of privacy, tucking away when not in use – perfect for environments where security matters. With built-in dual-band Wi-Fi and gigabit Ethernet, you stay connected reliably, whether you're running cloud-based POS software, streaming training videos, or managing inventory.

Why choose the Thinvent Uno?

- It's an all-in-one, so you save valuable desk space and reduce cable clutter.
- The AMD Ryzen 5 processor gives you responsive multitasking without lag.
- Durable construction means it keeps working long after cheaper alternatives have given up.
- Easy to install and maintain, with a minimal footprint and standard power supply.

Whether you're modernising a retail kiosk, setting up a point-of-sale system, or building a dedicated workstation for a factory floor, the Thinvent Uno 21.5" All in One PC is the reliable partner you can count on. Backed by our commitment to quality, it's a smart investment in productivity.
