Power meets precision in a sleek, all-in-one design.

A workstation that fits your workspace, not the other way around

The Thinvent Uno 21.5" All-in-One PC is built for professionals who value a clean, uncluttered desk without sacrificing performance. Powered by a modern AMD Ryzen 5 processor, it handles demanding business applications, data entry, point-of-sale systems, and digital signage with ease. The responsive 21.5-inch full HD touchscreen (pop-up webcam included) makes interactive kiosks, customer-facing displays, and collaborative tasks a breeze.

Why choose this all-in-one for your business or industrial environment

- Save valuable desk space by combining a powerful PC with a high-quality display in one elegant unit, reducing cable clutter and simplifying setup.
- The height-adjustable stand lets you find the perfect ergonomic position, reducing strain during long shifts at the counter, reception desk, or factory floor.

- With ample connectivity including HDMI, VGA, multiple USB ports, and gigabit Ethernet, you can easily hook up peripherals, barcode scanners, receipt printers, or extra monitors.
- Built with an aluminium alloy and steel housing, it's designed for continuous operation in busy retail, hospitality, healthcare, or light industrial settings.
- The 12V low-power design keeps electricity costs down and heat output minimal, making it a reliable choice for always-on applications.

Whether you're upgrading a hotel check-in kiosk, equipping a medical practice with a clean patient-facing terminal, or deploying thin clients in an office, the Thinvent Uno delivers the right balance of performance, footprint, and durability. It ships with FreeDOS – ideal if you want to install your own operating system or a custom Linux build.

Streamline your setup. Simplify your workflow. Choose the Thinvent Uno.
