Power through your workday with a performance partner that's built to last.

The Thinvent Uno 21.5" All in One PC puts serious multi-tasking power where you need it – right on your desk. Powered by an AMD Ryzen 5 processor, this machine handles busy workflows, data entry, and customer-facing applications with effortless speed. Whether you're managing stock, processing orders, or running point-of-sale software, you'll notice the difference from the moment you log in.

Why choose the Uno for your business?

- Space-saving design that combines a crisp 21.5" full HD display with a compact aluminium and steel body – no bulky tower taking up room
- Height-adjustable stand means you can set the perfect ergonomic position for every user, reducing strain during long shifts
- Pop-up webcam offers privacy when you need it and a clear picture for video calls or customer consultations when you don't

- Ready for wired networks with a reliable gigabit Ethernet port, ideal for secure, low-latency connections in retail, hospitality, or industrial settings
- Solid-state storage delivers quick boot times and snappy application loading, while the included Windows 11 IoT Enterprise LTSC provides a stable, long-term platform for dedicated use
- Wide viewing angles and ample brightness make the screen easy to read even in busy, well-lit environments

This all-in-one is built for demanding environments where reliability matters. The robust construction and efficient 12V power design mean it's ready to run all day, every day. Upgrade your workspace with a computer that combines professional performance, flexible ergonomics, and the trusted Thinvent build quality you can count on.
