Big screen. Big performance. Zero clutter.

Meet the Thinvent Uno 21.5" All in One PC, built for people who want a clean desk and a machine that keeps up. The AMD Ryzen 5 7530U processor with six cores and speeds up to 4.5 GHz handles everyday work without hesitation, whether that is billing counters, front desks, classrooms or back offices.

Why choose the Uno

- The 21.5 inch full HD screen with wide viewing angles means everyone gathered around it sees the same clear picture, from almost any position.
- The pop up camera stays tucked away when you are not on a call, so your workspace stays private and tidy.
- A height adjustable stand lets each user set the screen where their neck is happiest, whether they are sitting or standing.

- Built in speakers, microphone input and speaker out mean you can run calls, announcements or training sessions without hunting for extra gear.
- Plenty of ports, wired gigabit ethernet and dual band WiFi keep your peripherals and network connected.
- The aluminium alloy and steel housing is made for busy commercial environments, and a Kensington lock helps keep the unit where it belongs.
- FreeDOS gives you the freedom to install the operating system your business already uses.

If you are running front office counters, training rooms or shared workstations, the Uno keeps things simple, tidy and ready to work.
