Big screen productivity, built for the workplace.

The Thinvent® Uno 21.5" All in One PC brings a full-size 21.5 inch display and genuine AMD Ryzen™ 5 performance to desks, counters and workstations where reliability matters more than frills.

Why it belongs on your desk

- The AMD Ryzen™ 5 7530U processor with 6 cores handles everyday business software, browsers, spreadsheets and line-of-business applications without hesitation.
- A bright 1920 × 1080 screen with wide 178° viewing angles stays clear and readable from almost any position, so shared workstations and customer-facing counters work for everyone.
- Thinux™ Embedded Linux comes ready to use, with Chromium and Firefox for the web, LibreOffice for documents, and built-in support for Java, Python and glibc based applications.

- Remote work is straightforward with RDP 10, SSH, Putty, VNC shadowing and browser based remote management, so your IT team can support users without leaving their desks.
- SIP video and voice over IP, a pop up 2 megapixel camera and dual 3 watt speakers make it a complete communication point for reception desks, kiosks and service counters.
- A fixed stand, aluminium alloy and steel housing, and a Kensington Lock give you a tidy, stable, tamper-aware installation in public or shared spaces.
- Gigabit Ethernet, six USB ports, HDMI and VGA let you connect the peripherals and displays your workflow already depends on.

If you need a dependable, self-contained terminal that runs your applications, connects to your network and stays put, the Thinvent® Uno is the practical choice.
