Big screen productivity, neatly contained.

The Thinvent Uno 21.5" All in One brings your whole workspace into one clean unit. No tower under the desk, no tangle of cables, just a bright full HD display with the computer built right in.

Built for everyday business

- A 6 core AMD Ryzen 5 7530U processor keeps spreadsheets, billing software and browser tabs moving without stutter.
- The 21.5 inch full HD screen with wide viewing angles stays clear from almost anywhere in the room, so counter staff, supervisors and customers can all read it.
- A pop up 2 megapixel camera appears only when you need it, keeping video calls ready without leaving a lens watching your desk all day.
- Dual 3 watt speakers and mic input make it a complete front desk terminal for calls, announcements and training videos.
- A height adjustable stand lets each user set the screen at a comfortable level, reducing neck strain across long shifts.

Where it earns its place

- Billing and POS counters in retail and hospitality.
- Reception and enquiry desks.
- Factory and warehouse control stations.
- Clinic, pharmacy and lab workstations.
- Back office data entry and dispatch desks.

Why buy the Uno

- One unit means faster setup, less clutter and fewer things to go wrong.
- Aluminium alloy, steel and ABS housing stands up to daily commercial use.
- Gigabit Ethernet keeps it wired into your network.
- A Kensington lock point helps protect your investment in public areas.
- Backed by BIS, RoHS and ISO certifications, with FreeDOS giving you a clean base to load the operating system your business already uses.

Simple to deploy, easy to live with, and ready for work from day one.
