Your workspace, perfectly balanced.

The Thinvent Uno all-in-one PC is built for environments where reliability and ergonomics matter. Its height adjustable stand lets you position the 23.8-inch screen exactly where you need it, reducing strain during long shifts. The pop-up camera offers a clean, secure design that only appears when you want it – perfect for privacy-conscious settings like reception desks, control rooms, or retail counters.

Powered by a 12th generation Intel Core i5 processor, this machine handles multitasking with ease. Whether you're running point-of-sale software, managing inventory, or powering digital signage, the Uno delivers smooth, responsive performance. Windows 11 IoT Enterprise ensures a stable, long-term platform optimised for industrial and commercial use.

Solid-state storage means quick boot-ups and silent operation, while dual-band WiFi keeps you connected without messy cables. The robust aluminium and steel housing stands up to the bumps of a busy factory floor or a high-traffic shop.

Choose the Thinvent Uno when you need a dependable all-in-one that adapts to your space and your work. It's the smart foundation for any professional setup – from the warehouse to the front desk.
