Designed to perform, built to endure in any demanding workspace.

The Thinvent Uno 23.8" All-in-One PC transforms your desk into a command centre for industrial and commercial applications. Its 12th Gen Intel Core i5 processor delivers effortless multitasking, letting you run inventory management, point-of-sale systems, or monitoring software without a moment's hesitation. The crisp 1080p display ensures every detail is clear, whether you're reviewing schematics or processing transactions, and the wide viewing angles mean colleagues can collaborate without crowding.

A height-adjustable stand lets you find the perfect ergonomic position, reducing strain during long shifts. The sturdy aluminium and steel chassis withstands the bumps of busy factory floors, retail counters, or healthcare stations. With Windows 11 IoT Enterprise LTSC, you get a stable, long-term platform optimised for embedded use – no unexpected feature updates to disrupt your workflow.

Wired Ethernet delivers reliable connectivity where Wi-Fi signals falter, essential for fixed workstations. Pop-up webcam offers privacy when not in use, while dual speakers and convenient side USB ports make daily tasks straightforward.

Why choose the Thinvent Uno? Because it's a robust, space-saving workhorse that keeps your operation running smoothly, hour after hour. No fluff, just dependable performance in a refined, industrial-grade package.
