Without OS

Height Adjustable Stand

SKU: UNO24-I5_12H-8-M256-12_10-X-W_OS-HA

Smarter by design. Built for business.

The Thinvent Uno 23.8" All-in-One PC puts professional-grade performance and practical features exactly where you need them – on your desk, at your reception, or in your shop floor.

Power your workspace with a clean, clutter-free setup. The all-in-one form factor eliminates tangled cables and frees up valuable desk real estate. Whether you're managing a busy checkout, running a digital signage display, or operating a point-of-sale system, the Uno keeps everything tidy and professional.

Your comfort matters. The height-adjustable stand lets you find the perfect viewing angle, reducing neck and eye strain during long shifts. It's an ergonomic choice that supports your team's wellbeing.

Security is built in. A pop-up camera sits flush when not in use, giving you complete control over privacy. No lens covers to lose, no sticky notes – just instant privacy at the push of a button.

Inside, the 12th generation Intel Core i5 processor delivers responsive performance for everyday business applications. It handles multitasking with ease, from inventory software to customer databases, without breaking a sweat.

Built to last. The robust aluminium alloy and steel housing can withstand the demands of a busy commercial environment. It's a reliable workhorse for retail, hospitality, healthcare, and industrial settings.

The Uno comes without an operating system, giving you the freedom to deploy Windows, Linux, or a custom image that fits your IT policies. Perfect for system integrators and businesses that want full control from day one.

Invest in a machine that works as hard as you do – the Thinvent Uno 23.8". Smart, secure, and built to perform.
