Space that works as hard as you do.

Meet the Thinvent Uno 23.8" All in One PC. This is not just another screen; it is your command centre for efficient, clutter-free operations. Why wrestle with towers and separate monitors when you can have the power of a full desktop computer elegantly integrated into a stunning 23.8-inch display? This machine is built for professionals who demand a clean, professional setup without sacrificing performance.

Imagine walking into a retail outlet and having a customer's transaction processed instantly, or editing a report at your office desk without feeling boxed in by cables and extra hardware. The aluminium alloy housing isn't just for show; it dissipates heat so the system runs reliably, shift after shift, on the sales floor or in a busy back office. The full HD screen gives you razor-sharp clarity and wide viewing angles—perfect whether you are reviewing a spreadsheet, checking product images, or walking a customer through a gallery.

Even in its standard standby mode, the complete integrated system sips power with its efficient 12V adapter and gives you all the tools you need with multiple USB connectivity. While the switch to OS is anything you appreciate, this unwork area flex generates the greatest right—load a genuine authorised partner fitting a sturdy all, which will earn its table fixably rigid presence very around installing exactly your software build.
