The Uno: Where Uncompromising Simplicity Meets Industrial Strength.

Tame the demands of your industrial environment with a purpose-built workstation that strips away complexity without sacrificing power. The Thinvent Uno All-in-One PC is engineered for reliability and streamlined operation, providing a robust, clutter-free computing solution for your core applications.

Built for the Task

This isn't just a computer; it's your dependable partner on the factory floor, in the logistics hub, or at the kiosk. The Uno consolidates everything into a single, durable unit with a crisp 23.8-inch display, eliminating bulky towers and messy cables for a clean, professional setup. Its dual Gigabit Ethernet ports ensure rock-solid, high-speed network connections for critical data transfer and machine communication, making it ideal for network monitoring or running lean manufacturing software.

Why the Uno is Your Clear Choice

- Experience fluid multitasking and rapid application response, thanks to powerful Intel processing that handles your daily operational software with ease.
 - Reduce operator fatigue and improve productivity with a fully adjustable stand that allows you to position the screen at the perfect viewing angle for any workstation.
 - Gain peace of mind with a secure, stable, and bloatware-free Ubuntu Linux operating system that just works, day in and day out.
 - Enjoy enhanced durability in demanding settings with a robust aluminium alloy construction designed to withstand the rigours of 24/7 industrial use.
 - Simplify deployment and maintenance with a single, integrated unit that uses a standard 12V power input, making it easy to install and power in any location.
- Choose the Uno for a no-nonsense, highly reliable computing core that delivers focused performance where it matters most.
