Uncompromising power, streamlined for purpose. Meet the Thinvent Uno, the all-in-one industrial PC that cuts through complexity to deliver focused, reliable performance where it matters most.

### Built for demanding environments

- Engineered for 24/7 operation in settings where simplicity and durability are non-negotiable.
- Its robust, all-in-one design eliminates cable clutter and saves critical space on the factory floor, in control rooms, or at point-of-sale.
- The vivid 23.8" display provides crystal-clear visibility for monitoring processes, managing logistics, or interfacing with custom software.

### Reliable by design

- Dual Gigabit LAN ports ensure unwavering network connectivity for critical data transfer and machine communication.

- The efficient 12V DC power input and rugged construction offer enhanced stability and longevity in challenging conditions.
- A Kensington lock slot and pop-up camera provide physical security and flexibility for your specific application needs.

### A clean slate for your vision

- Supplied without an operating system, the Uno is a blank canvas ready to be tailored with your preferred, specialised software for seamless integration into your existing workflow.
- This is the robust, no-fuss computing core you need to drive digital signage, kiosks, manufacturing systems, and more—day in, day out.
