A sleek powerhouse for digital signage and public kiosks.

Ideal for a wide range of fixed applications

- Digital menu boards in restaurants and cafes
- Interactive information points in hotels and museums
- Secure point-of-sale terminals in retail
- Public access kiosks for councils and libraries

Why choose the Uno All-in-One?

Simplicity in a single unit

This all-in-one design eliminates bulky towers and messy cables. It's a clean, professional solution that saves space and reduces installation headaches. Just plug it in, and you're ready to go.

Built to perform, day after day

Reliable performance is essential for public-facing roles. Its robust construction and efficient design ensure smooth operation for your critical applications, from displaying dynamic content to running interactive software.

Engineered for secure, remote management

Control your entire network of devices from a single dashboard. Remotely update content, troubleshoot issues, and monitor performance without ever needing to be on-site. This saves you significant time and travel costs while keeping your operations running smoothly.

The Thinvent Uno delivers a professional, reliable, and easily managed computing solution for any environment where simplicity, durability, and control are paramount.
