SKU: UNO24-I5_14-32-M128-12_10-M-110-F

The Uno 23.8" All-in-One PC: effortless power for the modern workspace.

Meet the computer that keeps your whole day running smoothly, without taking over your desk. Designed for busy offices, bright reception areas, bustling shops and busy classrooms, the Uno 23.8" brings together a crisp, generous display and the kind of responsive performance that makes light work of spreadsheets, bookings, presentations and customer enquiries.

Why you'll love it

- A spacious 23.8-inch Full HD screen with wide viewing angles means everyone gets a clear, comfortable view, whether you're working side by side or presenting to a small group.
- The clever pop-up camera tucks away when not in use, giving you privacy and peace of mind at the touch of a button.
- Thanks to the powerful Intel Core processor, everyday tasks feel instant, and Windows 11 Professional gives you the familiar, secure tools your business needs to stay productive.

- With dual-band Wi-Fi and Gigabit Ethernet, you'll stay reliably connected, whether you're on a busy office network or a remote site.
- The sturdy, fixed stand keeps the screen rock-steady on any counter or desk, while the lightweight aluminium and steel build looks professional and handles the rigours of daily use.
- Plenty of ports, including USB 3.0 and HDMI, make it simple to hook up peripherals, a second screen, or a legacy system.

Where it shines

This is more than a PC – it's a polished solution for hotel check-in desks, clinic waiting rooms, point-of-sale counters and home offices alike. It arrives ready to work straight from the box, keeps a low profile, and is built to keep running reliably day after day.

Choose the Thinvent Uno 23.8" All-in-One for a clean, capable and dependable centrepiece for your workspace – one that simply lets you get on with the job.
