The All-in-One Engine for Demanding Tasks: Introducing the Thinvent Uno. Engineered for relentless performance in the most challenging environments, this robust computer streamlines your operations without the clutter of a traditional tower.

Built for Purpose in Industrial Settings

- Experience exceptional reliability with a fanless design, perfect for dust-sensitive or quiet environments.
- Benefit from a brilliant 23.8" display that delivers clear visibility from any angle on the shop floor or control room.
- Leverage dual Ethernet ports for seamless network integration, data collection, or creating dedicated secure networks.
- Enjoy the simplicity and security of a dedicated Thinix operating system, built for stability and remote management.

Your Operational Hub

Ideal for digital signage, machine interfacing, or process control, the Uno consolidates your workflow. Its compact, all-in-one aluminium alloy construction saves vital space while resisting the rigours of daily industrial use.

Simplify Management and Deployment

- Remotely configure, monitor, and update your entire fleet from a single, browser-based dashboard.
- Deploy specialised applications with confidence using built-in support for essential development tools.
- Connect with ease using a comprehensive suite of ports for peripherals, legacy equipment, and external displays.

Choose the Thinvent Uno for a powerful, space-saving, and supremely manageable computing solution that gets to work where you need it most.
