Engineered for relentless productivity, the Thinvent® Uno All-in-One PC.

Unified Powerhouse

Experience a new level of streamlined performance. This all-in-one industrial computer consolidates your entire system into a single, robust unit, saving critical space and simplifying your setup. Its powerful Intel® Core™ processing delivers the responsive speed needed to handle demanding industrial applications without hesitation.

Built for Demanding Environments

Designed to thrive where others falter. The Uno's durable construction and fanless design ensure silent, reliable operation in challenging conditions, free from dust and vibration concerns. Its stable fixed stand and comprehensive security features, including a Kensington lock slot, provide peace of mind for 24/7 deployments.

Simple, Secure Connectivity

Get connected with precision. Dual Gigabit Ethernet ports offer reliable, high-speed wired networking for data-intensive tasks and secure machine control, making it an ideal hub for industrial automation and digital signage. The expansive 23.8" full HD display delivers crisp, clear visuals for monitoring and control interfaces.

- Maximises workspace with a clean, all-in-one footprint.
- Delivers dependable, maintenance-free operation in industrial settings.
- Provides secure, high-bandwidth connectivity for critical networks.
- Offers a vibrant, large-format display for clear data visualisation.
