Unlock a new level of sleek, centralised control.

The Thinvent® Uno All-in-One PC consolidates your entire workstation into a single, elegant unit. With its vibrant 23.8-inch display and powerful Intel® Core™ processing, it delivers a responsive and clutter-free experience perfect for managing critical operations.

Ideal for demanding environments

- Consolidate kiosks, digital signage, and control panels into one robust, space-saving unit.
- Ensure reliable, around-the-clock operation for industrial monitoring and process visualisation.

- Deploy as a secure, dedicated terminal for office work, browsing, and remote system management.

Engineered for reliability

Its embedded Thinux™ operating system is built for stability and security, offering long-term support without bloat. With dual Ethernet ports for network redundancy and a versatile array of connectivity, the Uno seamlessly integrates into both new and legacy setups. The all-metal construction and fixed stand ensure it stays securely in place, day in and day out. Choose the Uno for a powerful, professional, and perfectly integrated computing solution.
