Height Adjustable Stand

SKU: UNO24-R5_7-16-M1024-19_7-M-11P-HA

Power through your workday with the Thinvent Uno – the all-in-one that puts performance centre stage.

Built for demanding professionals, this sleek 23.8-inch machine turns any desk into a command centre. The AMD Ryzen 5 processor delivers blistering speed for multitasking, from running heavy databases to editing spreadsheets with hundreds of tabs open. You get smooth, responsive computing without the fan noise or heat of a traditional tower.

Why choose the Thinvent Uno?

- Save precious desk space – a single cable powers your entire setup, freeing your workspace for what matters
- Work in comfort, all day long – the height-adjustable stand lets you find the perfect viewing angle, reducing neck and eye strain
- Blend into professional environments – the brushed aluminium and black finish looks at home in clinics, reception areas, and boardrooms

- Stay connected without clutter – dual-band Wi-Fi and gigabit Ethernet keep you online, while four USB ports handle your peripherals
- Keep conversations private – the pop-up camera emerges only when you need it, giving you peace of mind during remote calls

With crisp full-HD on the 23.8-inch screen and stereo speakers that fill a room, every presentation, video conference, or training session looks and sounds professional. Windows 11 Pro comes pre-installed, so you are ready to join a domain, apply group policies, and manage security from day one.

The Thinvent Uno is the intelligent choice for reception desks, medical workstations, retail counters, and home offices. It replaces an entire desktop with one elegant unit – no tower, no tangle of cables, no compromise. Upgrade your workspace, simplify your life, and focus on the work that matters.

Thinvent Uno 23.8" All in One PC

Specifications
