Power meets elegance in a sleek all-in-one that works as hard as you do.

Built for productivity

Whether you're managing a busy reception desk, powering a digital signage display, or running a lean office, this 23.8 inch all-in-one is your partner in quiet efficiency. The AMD Ryzen 5 processor handles multiple applications without breaking a sweat, so you can juggle spreadsheets, web browsing, and video calls without a glitch. And with Ubuntu Linux pre-installed, you get a secure, stable platform that stays out of your way – no bloatware, no distractions, just pure performance.

Designed with privacy in mind

A pop-up 2 megapixel camera keeps you firmly in control of your video calls. When not in use, it disappears into the bezel – peace of mind in a world of virtual meetings. The full HD display offers wide viewing angles, making it easy to share your screen with colleagues or customers.

Ready for any workspace

The fixed stand gives you a solid, space-saving footprint, ideal for counters, desks, or kiosks. A durable aluminium and steel housing means it withstands the daily bumps of a busy environment. With Ethernet connectivity for reliable networking, you can trust this machine to stay online when it matters most. And the low-voltage power adapter keeps energy costs down without compromising performance.

Choose the Thinvent Uno 23.8 – where reliability meets modern design. It's the all-in-one that simply works.
