

Thinvent Uno 23.8" All in One PC

AMD Ryzen 5 7430U processor

6 core, up to 4.3 GHz, 16 MB cache

32GB DDR4 RAM

256GB SSD

No WiFi

Without OS

Height Adjustable Stand

SKU: UNO24-R5_7-32-M256-19_7-X-W_OS-HA

Powerful workspace, beautifully compact.

Perfect for professionals who need a clean, streamlined desktop without sacrificing performance. The Thinvent Uno 23.8" all-in-one PC turns your desk into a command centre with a crisp, 1080p display and an AMD Ryzen 5 processor that handles everyday business tasks, data entry, and POS systems with ease.

Why choose the Thinvent Uno

- Space-saving design that frees up your desk – no bulky tower needed, just one elegant unit
- Height-adjustable stand lets you find the perfect viewing angle, reducing neck and eye strain during long shifts
- Pop-up camera with a privacy boost – only appears when you want it, perfect for video calls in open offices or public kiosks

- Versatile connectivity with both HDMI and VGA, so it works seamlessly with older projectors, second screens, or legacy displays
- Robust aluminium and steel housing built to withstand the rigours of retail, hospitality, and industrial environments
- Low-power 12V adapter keeps energy costs down and runs cool, even in 24/7 operation

Use it as a reception PC, a self-service kiosk, a factory floor workstation, or a meeting room hub. The lack of pre-installed OS gives you total control – load Windows, Linux, or your own custom image. With ample USB ports, an Ethernet connection, and a solid 128GB SSD, the Uno is ready to integrate with your existing network and peripherals right out of the box.

Make your workspace work smarter, not harder. The Thinvent Uno delivers professional productivity in one reliable, stylish package.
