The power of AMD, polished into a single, sleek workspace.

Built for serious productivity without the clutter

- A crisp 23.8 inch display that turns spreadsheets, dashboards, and design work into a pleasure to view
- AMD Ryzen 5 processing that handles heavy multitasking, from data analysis to video calls, without breaking a sweat
- The pop-up camera provides security when you need it and privacy when you don't – ideal for hybrid meetings
- A fixed stand offers rock-solid stability, perfect for busy reception desks, factory floors, or retail kiosks
- Robust connectivity with HDMI, VGA, USB ports and Gigabit Ethernet means you can plug in legacy equipment and modern peripherals alike

- Aluminium and steel construction built to withstand the rigours of industrial and commercial environments
- Low-power 12V operation keeps energy costs down and heat output minimal in enclosed spaces

Why choose the Thinvent Uno 23.8"

It replaces the chaos of separate tower and monitor with one neat, powerful unit. No cables to trip over, no extra power bricks – just one machine that does it all. The lack of an operating system gives you total freedom: install Windows, Linux, or a custom OS to match your exact workflow. And because it's designed for continuous operation in demanding settings, you can rely on it day in, day out.

Space is precious. Make the most of it with a computer that works as hard as you do.
