Big screen productivity, neatly on your desk.

The Thinvent Uno 23.8" All in One PC brings a full-size 23.8 inch display and AMD Ryzen 5 7530U performance together in a single, tidy unit. No tower under the desk, no tangle of cables, no clutter. Just switch it on and get to work.

The screen is the star. A 23.8 inch 1920 x 1080 panel with wide 178 degree viewing angles means documents, dashboards and spreadsheets stay clear and readable from almost anywhere in the room. The height adjustable stand lets you set the screen exactly where your neck wants it, so long working sessions stay comfortable.

Power where it matters

- The AMD Ryzen 5 7530U processor keeps everyday work flowing smoothly, from busy browser sessions to office applications and multitasking.
- 4 GB DDR4 memory and a 128 GB SSD give you responsive day-to-day performance with quick start-ups.

- Built-in speakers, a pop-up 2 megapixel camera and microphone input make video calls and presentations simple.
- Gigabit Ethernet keeps you reliably connected on wired networks, with HDMI and VGA outputs ready for a second display.
- A Kensington lock slot helps keep the machine secure in shared or public spaces.

Who is it for?

- Front desks, receptions and counters where a clean, professional setup matters.
- Offices and workstations that need a dependable everyday machine without a separate monitor.
- Training rooms, kiosks and back-office roles where space is tight and reliability counts.

If you want a capable, uncluttered all-in-one that handles daily work with ease, the Thinvent Uno is built for exactly that.
