1TB SSD

Dual Band WiFi

Windows 11 Professional

Fixed Stand

SKU: UNO24-R5_75-32_32-M1024-19_7-M-11O-F

A tidy, powerful all in one that keeps your desk clear and your work moving.

The Thinvent Uno brings a 23.8 inch full high definition display and AMD Ryzen 5 performance together in a single, clutter free unit. It is built for people who want a dependable everyday computer without a tower under the desk or a tangle of cables behind it.

Why choose the Uno

- One unit does the lot. The screen, speakers, camera and PC live in a single slim frame, so setup takes minutes and your workspace stays clean.
- Responsive everyday performance. The AMD Ryzen 5 7530U with six cores handles browsing, office suites, video calls and multitasking without stalling.
- Ready to work out of the box. Windows 11 Professional is preinstalled, so you can sign in and get going straight away.

- Room to connect. HDMI, VGA, six USB ports, gigabit Ethernet and dual band WiFi let you attach monitors, drives, printers and more.
- Clear video calls. The pop up 2 megapixel camera stays tucked away when not in use and rises when you need it.
- Built for long days. The aluminium alloy and steel housing is made to sit on a busy desk and keep working.
- Secure by design. A Kensington lock point lets you anchor the unit in shared or public spaces.

Ideal for offices, clinics, receptions, retail counters and home studies where space matters and reliability counts.

If you want a capable, uncluttered computer that simply gets on with the job, the Thinvent Uno is the sensible choice.

Thinvent Uno 23.8" All in One PC

Specifications

PROCESSING

Generation	7000 Series
Series	Ryzen 5
