Big screen performance for the front desk, the back office, and everywhere in between.

The Thinvent Uno 23.8" All in One is built for organisations that need dependable computing without the clutter of a traditional desktop tower. With AMD Ryzen 5 processing power at its heart, it handles the everyday workloads that keep a business moving, from billing counters and reception desks to training rooms and control cabins.

Why choose the Uno

- One clean unit, no tower: everything lives behind the screen, so your workspace stays tidy and your floor plan stays flexible.
- Ready for long working days: the AMD Ryzen 5 7530U keeps things responsive across spreadsheets, billing software, browsers and video calls.
- Made for shared spaces: the pop up camera gives you video calling when you need it, and stays out of sight when you do not.
- Comfort that lasts: the height adjustable stand lets each user set the screen where their neck and eyes are happiest.
- Windows 11 Professional built in: join your organisation's network, manage users and deploy the way your IT team expects.
- Room to connect: wired networking, multiple USB ports, HDMI and VGA let you bring in printers, scanners, barcode readers and a second display.
- Built to be trusted in a workplace: an aluminium alloy, steel and ABS housing with a Kensington lock point, backed by BIS, RoHS and ISO certifications.

  If you want a workstation that looks after itself, keeps desks clear and gives your team a screen they can actually work on all day, the Thinvent Uno is the sensible choice.
