Big screen productivity, built for the working day.

The Thinvent Uno 23.8" All in One brings a full desktop experience to reception desks, counters, classrooms and back offices without the clutter of a separate tower. The AMD Ryzen 5 7530U processor with six cores keeps everyday work moving briskly, so staff can switch between billing software, spreadsheets, email and browser tabs without waiting around.

Why the Uno earns its place on your counter

- A 23.8 inch full HD display with wide viewing angles means customers, colleagues and students can all read what is on screen, whether they are standing beside it or across the desk.
- The all in one form factor removes the tower, the cable spaghetti and the space it eats. You get a cleaner counter and a tidier workplace.

- Windows 11 Pro is ready out of the box, so your business applications, remote management and user accounts work the way your IT team expects.
- A pop up camera keeps video calls available when you need them and out of sight when you do not, a small touch that matters in public facing spaces.
- Gigabit Ethernet keeps the machine on your wired office network, ideal where stable connectivity matters more than wireless convenience.
- The Kensington lock point lets you secure the unit in shared or open areas.

If you need a dependable, uncomplicated workstation that looks tidy and gets on with the job, the Thinvent Uno is the sensible choice.
