Big screen productivity, built to stay on shift after shift.

The Thinvent Uno All in One brings a 23.8 inch full HD display and AMD Ryzen 5 power together in one tidy unit, so your workspace stays clear and your teams stay focused. With six cores ready to respond, it handles billing counters, point of sale terminals, kiosks, reception desks and back office tasks without hesitation.

Why choose the Uno

- One unit, no clutter. The display and PC are combined, so there is no separate tower taking up space under the desk.
- A screen everyone can see. Wide viewing angles mean staff and customers get a clear view from almost anywhere in front of it.
- Made for long working days. The aluminium alloy and steel housing is built to sit in busy commercial environments.

- Privacy when you need it. The pop up camera stays tucked away until you actually want it.
- Comfort that lasts. The height adjustable stand lets each user set the screen where their neck and eyes are happiest.
- Ready for business software. Windows 11 IoT Enterprise LTSC 2024 Value gives you a stable, long life platform for the applications you rely on.
- Wired reliability. Gigabit Ethernet keeps your connection steady in fixed installations.
- Secure by design. A Kensington lock point helps protect your investment in public facing areas.

If you want a dependable all in one that looks after your floor space, your staff and your uptime, the Thinvent Uno is the sensible choice.
