# Thinvent Technologies Private Limited

since 2007

About Us

Thinvent Technologies Pvt. Ltd. was founded in 2007 with the vision of becoming a leader in the embedded hardware and Linux based solutions market. Today, Thinvent delivers a broad range of automation solutions to industries as varied as transport, IT, manufacturing, food, education, garment and banking.
Thinvent provides DevOps consulting services and be-spoke manufacturing expertise.

About the Founder

Saurabh Jain did his B.Tech and M.Tech from Indian Institute of Technology, Madras in 2003. He has been dappling with Linux since 1995 - on desktops, servers and embedded systems.
Thinvent has a team of Engineers having vast experience in the field of software development, designing, and new product development.

Products

Thinvent devices offer the complete desktop experience. Our goal is to take the complexity out of thin client adoption. The web browsers and desktop software bundled with our products allow consumers to use them as standalone cloud clients when needed.

Our Thin Clients are available in a wide range of hardware options including wireless devices, all-in-ones and small form factor units. We offer a choice of Thinux Embedded Linux and Windows 10 IOT operating systems.

Thinvent Thin Client Features

Thinvent proudly says that its thin clients are manufactured in India. Our computers have the highest domestic inputs compared to other brands.
Our components are designed so our MSME partners can manufacture them without large machinery or investment.

Advantages for making it locally:

- Design and quality control
- Product suitable as per India weather conditions.
- Ability to do any software and hardware modifications as per customer requirements.
- Generates employment in the country.
- Local India support.

Quality and Reliability

- In Thinvent we focus on the quality.

- Our quality check sheets are made by the founder who has experience of more than 15 years in thin client industry and senior managers who has more than 8 years of experience in Thinvent Technologies Private Limited.

- Any revision in Quality check undergoes through well defined process
